-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

Applicant's response received on July 22 2005 has been fully considered and entered, but the arguments are not deemed to be persuasive.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Woo et al (US Patent no. 5,781,788) for the same reasons as previously set forth in the last office action mailed on April 22, 2005.

Regarding the above claim, the applicant argues that Woe does not perform encoding or decoding by checking a reset of the task status register. The examiner respectfully disagrees because such feature is present in Woo step 202 of fig. 5. In addition, such step is performed in a buffer, which is the claimed "register". Further Woo discloses does encode by performing an interrogation of register file as disclosed in col. 5, lines 24-34. Such interrogation as suggested by Woo is the status checking as claimed by the applicant. In addition, the steps

Art Unit: 2613

taken to monitor the behavior of the coding/decoding process is understood as being the step where a decision has to be made in order to determine whether coding/decoding is necessary. Further, in col. 7, lines 15-20, Woo discloses a step of specifying the status information by the register.

The applicant further argues that there is no teaching or suggestion of determining whether or not to perform encoding in Woo. The examiner respectfully disagrees because the "stop encoding" step is understood as being performed in a process that requires conditions to either stop or begin encoding. In other words, in stopping, Woo determines whether or not to perform encoding. In addition, the coding control is for both the encoder and the decoder.

The applicant further argues that the claim requires "making pre-assigned bits of the status register indicate buffer statuses of the encoder/decoder". The examiner respectfully disagrees since the pre-assigned number of bits is the target number of bits as disclosed in col. 13, lines 50-51. In addition, the buffer minimum, buffer maximum is considered as the buffer status as claimed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory

Art Unit: 2613

action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gims S. Philippe whose telephone number is (571) 272-7336. The examiner can normally be reached on M-F (9:30-7:00) Second Monday Off.
